EXPERIENCE

Software Engineer 06/2021 - Present

Lightbox San Francisco, CA

- **Led a two-engineer team** and mentored them to improve delivery speed by 30% through structured code reviews and agile workflows.
- Designed and maintained a **scalable React component library**, cutting feature development time by 25% across multiple teams.
- **Optimized rendering performance**, reducing load times by 30% and improving engagement for over 10,000 daily users.
- **UI Modernization**: Led the modernization of legacy UIs, converting them into a unified, **React-based design system**.
- **Collaborative Development**: Partnered with UX designers to translate business requirements into technical front-end solutions adopted company-wide.
- **Geospatial Visualization**: Developed complex geospatial tools with **React, Leaflet, and MapLibre** to visualize millions of property records in real-time.

Software Developer 06/2018 - 2021

Apple Sunnyvale, CA

- Delivered a **React + Redux application** for Apple's manufacturing operations, **reducing manual workflows by 40%** and improving data accuracy.
- Translated **UX wireframes into pixel-perfect interfaces**, ensuring compliance with Apple's design and accessibility standards (WCAG).
- Built and standardized a scalable React component library adopted by **5+ teams**, reducing duplicate code and cutting development time by 25%.
- Implemented **Redux architecture across multiple APIs**, improving data reliability and developer onboarding efficiency.
- Optimized builds with **Webpack and ES6**, delivering modular and performant UIs adopted by multiple engineering groups.

Software Developer Intern 10/2017 - 06/2018

Capillarity Upland, CA

- Developed the company's primary marketing website with **React, JavaScript, and CSS3**, driving improved customer engagement.
- Reduced development costs by standardizing UI and creating reusable components for the design system.

EDUCATION

M.S. Computer Engineering 2017

Drexel University Philadelphia, PA

B.E. Computer Engineering 2014

University of Mumbai India

SUMMARY

Front-End Engineer with 7+ years of experience delivering scalable, performant, and accessible web applications. Specialized in **React, TypeScript, and design system development**, with expertise in **UI/UX collaboration, WCAG accessibility standards, and performance tuning**. Proven track record of **leading teams, optimizing workflows, and building enterprise-scale applications** at Apple and Lightbox.

SKILLS

JavaScript · TypeScript · React · Redux ·
Next.js · Vue.js · HTML5 · CSS3 · SCSS ·
Bootstrap · Wireframing · Accessibility ·
Responsive Design · Webpack · Cypress ·
GitHub/GitLab · CI/CD · Agile/Scrum ·
AWS · NoSQL/SQL · WCAG

KEY ACHIEVEMENTS

- 💎 **Team Leadership**
Improved delivery speed by 30% through structured reviews
- 💎 **Design System**
Built and standardized a React component library adopted by 5+ teams, reducing development time
- 💎 **Accessibility**
Ensured WCAG-compliant UIs, improving usability across devices and users.
- 💎 **Performance**
Reduced app load times by 30%, supporting 10k+ active users daily.
